Development*
Springer
With its clear
structure and

practical
approach,
Good Study
provides the
ideal guide to
help students
through their

demanding first year of study. Its basic aim is to give them the maximum information in the minimum time so they can concentrate on using the advice whilst studying.

Good Study is the complete revision of the best-selling Handbook of Student Skills and is written by a lecturer with many years of first-year university teaching.

Transforming Microfinance Institutions
Routledge
Focussing on

the most common errors in English, this book is the easiest way to improve your everyday language skills. Using simple explanations and corpus examples, it uses a thematic approach to steer learners away from the most common pitfalls in English.

How Livelihoods are Changing in Rural Bangladesh

Quickstudy
This book provides an overview of

developments in the conservation and sustainable utilisation of Farm Animal Genetic Resources. It is based on presentations given at a conference on this subject co-organised by the British Society of Animal Science, the Department for Environment, Food and Rural Affairs, the Rare Breeds Survival Trust and the Sheep Trust.

A Learning Process Approach

SAGE Publications "Today more than ever smallholders and rural communities require access to information and communication to make their voices heard and change their lives for the better. Communication for Development [ComDev] facilitates dialogue and collaborative action, combining participatory methods with communication tools ranging from community

media to ICTs. This sourcebook is meant to equip development and communication professionals with a set of guidelines, illustrative experiences, reference materials, and learning tools to strategically apply communication in agriculture and rural development initiatives in various contexts around the world."-- Publisher's description.

The State of Economic Inclusion Report 2021
The Potential to Scale
World Bank Publications
editors Hosne Ara, Bushra Khan, Sarder Nasir Uddin
World Bank Publications
Reflecting the rapid rise in popularity of recent initiatives such as the UN Principles for Responsible Management Education (PRME), this handbook

exhaustively covers a variety of responsible management, learning and education topics, and provides an invaluable roadmap for this fast-developing field. Covering various perspectives on the topic, right through to contexts, methods, outcomes and beyond, this volume will be an invaluable integrative resource for practitioners and researchers alike, and is designed to serve a range

of communities that deal with topics related to sustainability, responsibility and ethics in management learning and education.

Community Organization and Rural Development

t Elsevier Argues that microfinance is an industry focused on maximizing profits and plagued by predatory lending practices, scandals, cover-ups and corruption, and offers solutions for the future.

How Microlending Lost Its Way and Betrayed the

Poor World Bank Publications This edited collection presents recent developments, practical innovations, and policy reforms in the realm of microfinance in emerging markets. Microfinance has been hotly debated by ever-colliding camps of ardent supporters, who believe that microfinance addresses

credit market failures and provides a durable answer to the problem of the poverty, and staunch critics, who argue that lending by microfinance institutions is wasteful, and the interest rates are too high. To bring further insight into this important debate, this book presents comprehensive historical, political, and economic perspectives on the latest issues in microfinance. An impressive array of

scholars and practitioners build a framework for thinking about regulation to drive sustainable, inclusive development. With case studies of programs in India, Ghana, and Bangladesh, and examinations of the effects of gender and religion on financial decision-making, this comprehensive collection offers something valuable to scholars, policymakers, and

practitioners— anyone with a vested interest in promoting innovation in microfinance. The Political Economy of Change New Delhi : Vikas Adaptive social protection (ASP) helps to build the resilience of poor and vulnerable households to the impacts of large, covariate shocks, such as natural disasters, economic crises, pandemics, conflict, and forced displacement.

Through the provision of transfers and services directly to these households, ASP supports their capacity to prepare for, cope with, and adapt to the shocks they face—before, during, and after these shocks occur. Over the long term, by supporting these three capacities, ASP can provide a pathway to a more resilient state for households that may otherwise lack the resources to move out of

chronically vulnerable situations. Adaptive Social Protection: Building Resilience to Shocks outlines an organizing framework for the design and implementation of ASP, providing insights into the ways in which social protection systems can be made more capable of building household resilience. By way of its four building blocks—programs, information,

finance, and institutional arrangements and partnerships—the framework highlights both the elements of existing social protection systems that are the cornerstones for building household resilience, as well as the additional investments that are central to enhancing their ability to generate these outcomes. In this report, the ASP framework and its building

blocks have been elaborated primarily in relation to natural disasters and associated climate change. Nevertheless, many of the priorities identified within each building block are also pertinent to the design and implementation of ASP across other types of shocks, providing a foundation for a structured approach to the advancement of this rapidly

evolving and complex agenda. Sociability, Social Capital, and Community Development IUCN Negotiation is a critical skill needed for effective management. NEGOTIATION: READINGS EXERCISES, AND CASES, 5/e takes an experiential approach and explores the major concepts and theories of the psychology of bargaining and negotiation, and the dynamics of interpersonal

and inter-group conflict and its resolution. It is relevant to a broad spectrum of management students, not only human resource management or industrial relations candidates. It contains approximately 50 readings, 32 exercises, 9 cases and 5 questionnaires .

National Youth Theatre Monologues
Springer
This book is a unique collection of essays by the leading

scholars in business ethics. The purpose of the volume is to examine the emergence of business ethics as an important element of managerial practice and as an integral area of scholarship. The four lead essays--by Norman Bowie, Kenneth Goodpaster, Thomas Donaldson, and Ezra Bowen--are examples of some of the best thinking about the role of ethics in business.

These essays examine such issues as the nature of scholarship and knowledge in business ethics, how ethics is a central factor in managerial leadership, the complexities of ethics in multinational and multicultural settings, and the problems of ethical literacy and moral debate in a free society. Each lead essay develops several themes which are then explored by

other prominent thinkers, including Robert Solomon, Richard DeGeorge, and Joanne Cuilla. *Common Grammar Pitfalls and Mistakes* McGraw-Hill/Irwin Ilchman and Uphoff believe that political science has failed in the past to meet its own standards of rigor and cogency and does not meet standards of usefulness and relevance set by others. The Political

Economy of Change attempts to remedy these shortcomings by expanding the limits of social science analysis to deal with problems of allocation and productivity in all spheres of public choice, not just the economic sphere.

Denim

SprintPrints An exciting and invaluable collection of audition speeches, all chosen from plays produced by the National Youth Theatre of Great Britain,

spanning more than sixty years as one of the world's leading companies for young performers. Featuring seventy-five monologues by acclaimed writers such as Zawe Ashton, Moira Buffini, Carol Ann Duffy, Brian Friel, James Fritz, James Graham, Dennis Kelly, Rebecca Lenkiewicz, Gbolahan Obisesan, Evan Placey, Sarah Solemani and Jack Thorne, the book

offers rich and diverse roles ranging from teens to adults. Each audition speech also comes with invaluable supporting material - compiled by NYT Associate Artist Michael Bryher - to help you perform the piece to its maximum effect, including: A detailed description of the play that the speech is originally from Contextual information such as what's just happened in the play, where the

monologue takes place, to whom the character is talking, and what their motivations are Things to think about when rehearsing and performing the speech The book also provides extensive advice on choosing a speech, working on it and preparing for auditions, plus tips and first-hand insights into the monologues from current NYT members and alumni who've

performed them. An ideal resource for actors auditioning for drama school, the NYT or elsewhere, as well as those preparing for showcases or competitions, National Youth Theatre Monologues offers a wide and diverse range of roles, themes and styles - meaning you'll be able to find the speech that's just right for you. Poverty and Shared Prosperity 2018 SAGE Renowned editor Larwrence

Harbison brings together approximately one hundred never-before-published men's monologues for actors to use for auditions and in class, all from recently produced plays. The selections include monologues from plays by both well-known playwrights and future stars, including Jonathan Yukitch, Don Nigro, Lloyd Su, Daniel Damiano, Molly Goforth,

Carlyle Brown, Seth Svi Rosenfeld, Brian Dykstra, Steven Hayet, David MacGregor, and Nat Cassidy. There are terrific comic pieces (laughs) and terrific dramatic pieces (no laughs), and all represent the best of contemporary playwriting. This collection is an invaluable resource for aspiring actors hoping to ace their auditions and impress directors and teachers with contemporary pieces.

Confessions of a Microfinance Heretic Tuttle Publishing
Denim: Manufacture, Finishing and Applications provides exhaustive coverage of denim manufacture, jeans washing, novel applications and environmental impacts. It also contains information on the history and social influence of denim, and includes the details relevant to the fashion and apparel industry. The topics covered

are comprehensive with contributions from experts the world over, and the book is offered as an authentic reference book for any relevant information on denim. Provides a thorough review of denim manufacturing and jeans washing technologies Includes details relevant to the fashion and apparel industry while maintaining a high level of technological

content on spinning, dyeing, weaving, garments, washing, finishing and other applications. Includes several contributions from industry experts. *Ethics and Entrepreneurship* Routledge. In this book we capture and explore different aspects of value in corporate social responsibility (CSR). This includes the historical development of value in CSR, how

value is linked to a positive vision of the future, and how it is communicated by a range of private and public organisations to various audiences. The book contrasts corporate strategic value with cooperative value, and community value in the context of sustainable development. It explains how leaders' values can drive responsible business practice and enhance

social cohesion, solidarity and resilience in fractured and unequal communities. The book asks the reader to consider what value means in CSR for business and society, where it comes from and how it is enacted, alongside its broader purpose and value to the community. Finally, the book presents CSR as a global project by noting how values are cultural and how sustainability has become

an urgent international priority. *Values and Corporate Responsibility* The State of Economic Inclusion Report 2021The Potential to Scale Group liability is often portrayed as the key innovation that led to the explosion of the microcredit movement, which started with the Grameen Bank in the 1970s and continues on today with hundreds of institutions

around the world. Group lending claims to improve repayment rates and lower transaction costs when lending to the poor by providing incentives for peers to screen, monitor, and enforce each other's loans. However, some argue that group liability creates excessive pressure and discourages good clients from borrowing, jeopardizing both growth and

sustainability. Therefore, it remains unclear whether group liability improves the lender's overall profitability and the poor's access to financial markets. The authors worked with a bank in the Philippines to conduct a field experiment to examine these issues. They randomly assigned half of the 169 pre-existing group liability 'centers' of approximately twenty women to individual-liability

centers (treatment) and kept the other half as-is with group liability (control). We find that the conversion to individual liability does not affect the repayment rate, and leads to higher growth in center size by attracting new clients. World Bank Publications
In response to a clear need by low-income people to gain access to the full range of financial services including savings, a growing

number of microfinance NGOs are seeking guidelines to transform from credit-focused microfinance organizations to regulated deposit-taking financial intermediaries . In response to this trend, this book presents a practical 'how-to' manual for MFIs to develop the capacity to become licensed and regulated to mobilize deposits from the public. 'Transforming Microfinance Institutions'

provides guidelines for regulators to license and regulate microfinance providers, and for transforming MFIs to meet the demands of two major new stakeholders regulators and shareholders. As such, it focuses on developing the capacity of NGO MFIs to mobilize and intermediate voluntary savings. Drawing from worldwide experience, it outlines how to manage the transformation

process and address major strategic and operational issues inherent in transformation including competitive positioning, business planning, accessing capital and shareholders, and how to 'transform' the MFI's human resources, financial management, MIS, internal controls, and branch operations. Case studies then provide examples of developing a new regulatory tier for

microfinance, and how a Ugandan NGO transformed to become a licensed financial intermediary. This book will be invaluable to regulators and microfinance NGOs contemplating institutional transformation and will be of tremendous use to donors and technical support agencies supporting MFIs in their transformation .
Wetlands of Bangladesh
Kumarian Press
The rural

economy in Bangladesh has powerfully advanced economic growth and substantially reduced poverty, especially since 2000, but the remarkable transformation and unprecedented dynamism in rural Bangladesh remain an underexplored , underappreciated, and largely untold story. Dynamics of Rural Growth in Bangladesh: Sustaining Poverty Reduction tells

that story and inquires what specific actions Bangladesh might take—given the residual poverty and persistent malnutrition—to accelerate and channel its rural dynamism to sustain the gains in eliminating poverty, achieving shared prosperity, and advancing national aspirations to achieve middle-income status. The central element of this study, undertaken

with the Government of Bangladesh Planning Commission to address key questions elicited through extensive consultation, is an empirical analysis that illuminates the underlying dynamics of rural growth, particularly the role of agriculture and its relationship to the nonfarm economy. Using all sources of data available for the macro-, meso-, and microhousehold levels, the analysis

provides new evidence on changes in the rural economy and the principal drivers of rural incomes. It also examines market performance for high-value agricultural products and agriculture’s nutrition linkages, based on new surveys and analysis. The resulting evidence, examined in light of the rich knowledge of rural development in Bangladesh, is used to delineate the implications

for policy and the strategic priorities for sustaining future rural development, poverty reduction, food security, and nutrition. The effects of policy reforms, changes in technology, and investments in infrastructure and human capital described here, along with the persistent enterprise of rural Bangladeshi households, offer a compelling case study of how mutually

reinforcing actions can trigger the highly-sought-after virtuous cycle of rural development. The findings clearly demonstrate the pro-poor nature of agricultural growth and its catalytic role in stimulating the rural nonfarm economy. They show that households have no linear or predictable pathway out of poverty; instead, they wisely employ a combination of farm and nonfarm income

strategies to climb out of, and then stay out of, poverty. The results represent a strong contribution to the global thinking on rural transformation and on how agriculture in particular sustains the economic momentum that fosters poverty reduction and more widespread prosperity. Handbook of Student Skills Sprintprint Honey Bear Books As Western aid budgets

are slashed and government involvement with aid programmes reduced, NGOs in the voluntary sector are finding themselves taking an ever-increasing share of development work overseas. As

they do so, they are forced to grow and to assume new responsibilities, taking more important and wide-ranging decisions - in many cases, without having had the chance to step back and review the options before them and the best ways of maximizing

the impact they make. This collection of essays explores the strategies available to NGOs to enhance their development work, reviewing the ways that options can be understood, appropriate programmes and likely problems.
