[A Guide for Christians to Understand America's Constitutional Crisis](#) Freiling Publishing

Religion and the Constitution, Fourth Edition, written by a team of well-known Constitutional Law scholars, thoughtfully examines the relationship between government and religion within the framework of the U.S. Constitution. This classroom-tested casebook is suitable for courses in Religious Liberty, Religion and the Constitution, or Religious Institutions and the Law.

*Nine Clashing Visions on the Supreme Court* Sterling

Publisher Description

**Christianity, Capitalism and the Constitution** Basic Books

Canceling Christianity is about the battle for the heart and soul of America, the spiritual conflict we find ourselves in, and how the forces of darkness, both human and demonic, are behind today's progressive "cancel culture." As we watch our institutions being hijacked by anti-democratic philosophies, cultural Marxists, globalists, and extreme leftists, Fiorazo shows us how to identify the evil in our midst and reclaim our country and our churches. A clarion call for believers who don't want to standby and watch America disintegrate into the atheist abyss, this is a timely and relevant message for today's church. "David Fiorazo is on the cutting edge of helping us understand the battles we face, and his book is required reading for those navigating the difficult times we find ourselves in." -DR. ANDY WOODS, Pastor Sugar Land Bible Church, President Chafer Theological Seminary " With the culture and even some churches disintegrating before our eyes, we need 'watchmen on the wall' sounding the alarm. David Fiorazo is one of those watchmen!" -JAN MARKELL, founder, Olive Tree Ministries, Understanding the Times Radio " Men inspired by God made America great. Yet, we have grown complacent and now shun our founding principles. Fiorazo not only outlines the present crisis but gives us a blueprint for fighting back." -STEVE SMOTHERMON, Pastor, Legacy Church, Albuquerque " In Canceling Christianity, David Fiorazo offers an honest assessment of why we must engage the culture and how to begin moving from silence to strength in the battle for hearts and minds." -HEIDI ST. JOHN, author, speaker, podcaster, Mom Strong International

*The Faith of Our Founding Fathers* WestBow Press

This book examines the origins of Australia's constitutional religious freedom provision. It explores, on the one hand, the political activities and motives of religious leaders seeking to give the Australian Constitution a religious character and, on the other, the political activities and motives of a religious minority seeking to prevent the Australian Constitution having a religious character. The book also interrogates the argument advanced at the Federal Convention in favour of section 116, dealing with separation of religion and government, and argues that until now scholars and courts have misunderstood that argument. The book casts new light to show how the origins of the provision lead to section 116 being conceptualised as a safeguard against religious intolerance on the part of the Commonwealth. Written in an accessible style, the work has potential to influence the development of constitutional doctrine by the High Court through its challenge of historical assumptions on which the High Court's current doctrine is based. Given the ongoing political debates concerning the interaction of discrimination law and religious freedom, the book will be of interest to academics and policy-makers working in the areas of law and religion, constitutional law and comparative law.

*The Analogy of Religion, Natural and Revealed, to the Constitution and Course of Nature* Foundation for Amer Christian

A distinguished professor debunks the assertion that America's Founders were deists who desired the strict separation of church and state and instead shows that their political ideas were profoundly influenced by their Christian convictions. In 2010, David Mark Hall gave a lecture at the Heritage Foundation entitled "Did America Have a Christian Founding?" His balanced and thoughtful approach to this controversial question caused a sensation. C-SPAN televised his talk, and an essay based on it has been downloaded more than 300,000 times. In this book, Hall expands upon this essay, making the airtight case that America's Founders were not deists. He explains why and how the Founders' views are absolutely relevant today, showing that they did not create a "godless" Constitution; that even Jefferson and Madison did not want a high wall separating church and state; that most Founders believed the government should encourage Christianity; and that they embraced a robust understanding of religious liberty for biblical and theological reasons. This compelling and utterly persuasive book will convince skeptics and equip believers and conservatives to defend the idea that Christian thought was crucial to the nation's founding--and that this benefits all of us, whatever our faith (or lack of faith).

**Christian History of the Constitution of the United States of America** Thomas Nelson

Is there room for religion in politics? In this insightfully written book, Paul Marshall argues that Christians can and should approach politics in a way informed by faith. Drawing on traditions of both Catholic and Protestant political thought, Marshall analyzes the ways in which religion influences our understanding of power, justice, and democracy. By exploring the biblical background of modern issues, Marshall provides an indispensable guide for Christians searching for a way to interject their religious convictions into their political actions. In an age when the relationship between politics and religion is becoming ever more important--and ever more blurred--both in America and beyond, God and the Constitution is essential reading for anyone interested in the intersection of faith and government.

[Religion, Secularism, and Constitutional Democracy](#) Wallbuilders Press

Religion has become a charged token in a politics of division. Religious Freedom and the Constitution offers practical, moderate, and appealing terms for the settlement of many hot-button issues that have plunged religious freedom into controversy. It calls Americans back to the project of finding fair terms of cooperation for a religiously diverse people, and it offers a valuable set of tools for working toward that end.

**Origins and Future** West Academic Publishing

Compilation for study groups of documents showing the rise of self-government in a religious-oriented America from colonial times through the American Revolution. For contents, see Author Catalog.

[Prison Religion](#) Harvard University Press

Throughout American history, views on the proper relationship between the state and religion have been deeply divided. And, with recent changes in the composition of the Supreme Court, First Amendment law concerning religion is likely to change dramatically in the years ahead. In *The Religion Clauses*, Erwin Chemerinsky and Howard Gillman, two of America's leading constitutional scholars, begin by explaining how freedom of religion is enshrined in the First Amendment through two provisions. They defend a robust view of both clauses and work from the premise that that the establishment clause is best understood, in the words of Thomas Jefferson, as creating a wall separating church and state. After examining all the major approaches to the meaning of the Constitution's religion clauses, they contend that the best approaches are for the government to be strictly secular and for there to be no special exemptions for religious people from neutral and general laws that others must obey. In an America that is only becoming more diverse with respect to religion, this is not only the fairest approach, but the one most in tune with what the First Amendment actually prescribes. Both a pithy primer on the meaning of the religion clauses and a broad-ranging indictment of the Court's misinterpretation of them in recent years, *The Religion Clauses* shows how a separationist approach is most consistent with the concerns of the founders who drafted the Constitution and with the needs of a religiously pluralistic society in the 21st century.

**Law, Religion, and the Constitution** Oxford University Press

In this provocative and insightful book, constitutional scholar and journalist Garrett Epps reviews the key decisions of the 2013-2014 Supreme Court term through the words of the nation's nine most powerful legal authorities. Epps succinctly outlines one opinion or dissent from each of the justices during the recent term, using it to illuminate the political and ideological views that prevail on the Court. The result is a highly readable summary of the term's most controversial cases as well as a probing investigation of the issues and personalities that shape the Court's decisions. Accompanied by a concise overview of Supreme Court procedure and brief case summaries, *American Justice 2014* is an engaging and instructive read for seasoned Court-watchers as well as legal novices eager for an introduction to the least-understood branch of government. This revealing portrait of a year in legal action dramatizes the ways that the Court has come to reflect and encourage the polarization that increasingly defines American politics.

*The Faith of Our Founding Fathers* Cambridge University Press

Refutes the claims of the religious right that America was founded as a Christian nation, and emphasizes that separation of church and state was designed to guarantee religious freedom

[The Case for Separating Church and State](#) Oxford University Press

*The Agnostic Age: Law, Religion, and the Constitution* is a book for lawyers, law professors, law students, lawmakers, and any citizen who cares about church-state conflict and about the relationship between religion and liberal democracy. It provides a way to understand and balance the conflicts that inevitably arise when neighbors struggle with neighbors, and when liberal democracy tries to reach common ground with religious beliefs and practices. Paul Horwitz argues that the fundamental reason for the church-state conflict is our aversion to questions of religious truth. By trying to avoid the question of religious truth, law and religion has ultimately only reached a state of incoherence. He asserts that the answer to this dilemma is to take "the agnostic turn": to take an empathetic and imaginative approach to questions of religious truth, one that actually confronts rather than avoids these questions, but without reaching a final judgment about what that truth is. This book offers a sensitive and sensible approach to questions of church-state conflict, justifying what the courts have done in some cases and demanding new results in others. It explains how the church-state conflict extends beyond law and religion itself, and goes to some of the central questions at the heart of the troubled relationship between religion and liberal democracy in a post-9/11 era.

[The Three Cs That Made America Great](#) Yale University Press

*Contending for the Constitution* is a companion volume to the popular work *Defending the Declaration*. As author Gary Amos did concerning the Declaration, Mark Beliles and Doug Anderson present their case that the Constitution is based on biblical principles and Christian influence. Using primary source evidence, the authors give an easy-reading history of the Constitutional Convention and the Founder's emphasis on religion being necessary for its success. They show how the spirit of the Constitution has greatly diminished today and issue a call for its defense. -- from the publisher.

*Religious Expression and the American Constitution* Wolters Kluwer

America is in the midst of a cultural and constitutional law crisis that began more than sixty years ago and was further exacerbated by the 2015 Supreme Court same-sex marriage decision. How did we become a culture that lacks objective morality and embraces secular ideas, hinging on the majority whim of nine justices? How do we get back to being a biblically moral, upright society and recognizing the U.S. Constitution as supreme law

of the land? In *The Legal Basis for a Moral Constitution*, Jenna Ellis makes a compelling case for the true roots of America's Founding Documents in objective morality and how our system of government is founded upon the Christian worldview and God's unchanging law, not a secular humanist worldview. She provides a unique perspective of the Founding Fathers as lawyers and how they understood the legitimate authority of biblical truth and appealed directly to God's law for the foundation of America. Weaving together the legal history and underpinning worldview shifts in American culture, Ellis advocates how Christians must change the basic reasoning of our appeal and effectively engage our culture. Finally, she proposes the solution to reclaim objective, biblical morality in law that the Founders themselves provided for through Article V of the U.S. Constitution. This book is for every Christian who seeks to understand the times and our constitutional and cultural crisis.

Especially well suited to a variety of courses, the comprehensive yet concise *Religion and the Constitution* brings a refreshing new perspective to the study of topics of enduring interest. Instructors will appreciate the book for its: - exceptional authorship -- Michael W. McConnell, John H. Garvey, and Thomas C. Berg are outstanding scholars in the area - emphasis on broad, recurring themes to place current debates in context, for example; free exercise of religion in the face of government regulation, government financial assistance to religious institutions, and the role of religion in government institutions such as schools - Notes and questions that connect constitutional and religious history with today's constitutional issues - focus on the relationship between free exercise and establishment clauses - lightly-edited cases that promote deep analysis - Teacher's Manual that offers guidance for structuring the course, as well as answers and analysis of questions raised in the book The text is divided into six main parts: - Introduction - History - Religion in the Regulatory State - The Power of the Purse - Religion and the Government's Influence Over Culture - What is Religion? Religion and the Constitution, --the perfect balance between historical and contemporary issues. Be sure to consider it for your next course.

[American Justice 2014](#) Princeton University Press

First Amendment rights have been among the most fiercely debated topics in the aftermath of 9/11. In the current environment and fervor for "homeland security," personal freedoms in exchange for security are coming under more scrutiny. Among these guaranteed freedoms are the protection of religious expression given by the U.S. Constitution and the constitutional prohibitions against behaviors that violate the separation of church and state. The mandate that the government "shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof" is a general principle that has guided American courts in interpreting the original intent of the First Amendment. In *Religious Expression and the American Constitution*, Haiman focuses on the current state of American law with respect to a broad range of controversial issues affecting religious expression, both verbal and nonverbal, along with a review of the recent history of each issue to provide a full understanding.

Providence Foundation

Both the Bible and the Constitution have the status of "Great Code," but each of these important texts is controversial as well as enigmatic. They are asked to speak to situations that their authors could not have anticipated on their own. In this book, one of our greatest religious historians brings his vast knowledge of the history of biblical interpretation to bear on the question of constitutional interpretation. Jaroslav Pelikan compares the methods by which the official interpreters of the Bible and the Constitution—the Christian Church and the Supreme Court, respectively—have approached the necessity of interpreting, and reinterpreting, their important texts. In spite of obvious differences, both texts require close, word-by-word exegesis, an awareness of opinions that have gone before, and a willingness to ask new questions of old codes, Pelikan observes. He probes for answers to the question of what makes something authentically "constitutional" or "biblical," and he demonstrates how an understanding of either biblical interpretation or constitutional interpretation can illuminate the other in important ways.

*Christianity and the Constitution* The Faith of Our Founding Fathers Baker Academic

*Beyond Belief, Beyond Conscience* W. W. Norton & Company

Using the writings of the founders and records of their conversations and activities, John Eidsmoe demonstrates the influence of Christianity on the political convictions of the founding fathers.

*Canceling Christianity* Oxford University Press

A New York Times Book Review Editors' Choice Selection A "volume of lasting significance" that illuminates how the clash between sex and religion has defined our nation's history (Lee C. Bollinger, president, Columbia University). Lauded for "bringing a bracing and much-needed dose of reality about the Founders' views of sexuality" (New York Review of Books), Geoffrey R. Stone's *Sex and the Constitution* traces the evolution of legal and moral codes that have legislated sexual behavior from America's earliest days to today's fractious political climate. This "fascinating and maddening" (Pittsburgh Post-Gazette) narrative shows how agitators, moralists, and, especially, the justices of the Supreme Court have navigated issues as divisive as abortion, homosexuality, pornography, and contraception. Overturning a raft of contemporary shibboleths, Stone reveals that at the time the Constitution was adopted there were no laws against obscenity or abortion before the midpoint of pregnancy. A pageant of historical characters, including Voltaire, Thomas Jefferson, Anthony Comstock, Margaret Sanger, and Justice Anthony Kennedy, enliven this "commanding synthesis of scholarship" (Publishers Weekly) that dramatically reveals how our laws about sex, religion, and morality reflect the cultural schisms that have cleaved our nation from its founding.
