ON COURSE:

STRATEGIES FOR CREATING SUCCESS IN COLLEGE AND IN LIFE, STUDY SKILLS PLUS

EDITION was created

for educators who would like to promote student growth and self-awareness, and

whose goal it is to empower their students while providing more

extensive instruction in study skills. The Study Skills Plus Edition

engages students in a learner-centered construction of study skills knowledge, and gives students practice in applying

empowerment strategies. The ON

COURSE STUDY SKILLS PLUS EDITION

demonstrates the choices that successful students make. This new text highlights the very process of learning how to solve academic challenges with improved study skills so that students learn the empowering process of critical and creative problem solving that will enable them to achieve greater success in all parts of their lives. This is accomplished through case studies, where students can apply strategies they learn to scenarios before creating their own academic skills plan. A self-assessment tool at the beginning of the text helps students to identify behaviors and beliefs they may wish to change in order to achieve more of

their potential in college and in life. Students have an opportunity to revisit their self-assessment at the conclusion of the text. Written in a positive, motivational style, ON COURSE empowers students with the tools they need to take charge of their success in college and in life. Downing's powerful guided journal entries are retained from the ON COURSE text to help students develop essential life skills by encouraging exploration of personal responsibility, self-motivation, interdependence, and self-esteem.

Straight-A Study Skills

Simon and Schuster
This text not only presents information, tips, and tactics required for enhancing college study skills, but

it does so by connecting with the student on a more personal level. In addition to addressing the student's individual learning techniques, this book helps the student understand the other factor which plays a critical role in academic success: namely, an accurate and effective perspective on college learning (the roles of attitude and motivation).

This practical skills guide helps young people with who learn differently including those with dyslexia, DCD/dyspraxia and ADHD, study for their exams. Students who learn differently can often find exams challenging and can

experience a good deal of anxiety around exam time, leading to exam results that may not accurately reflect their capabilities. Much exam stress arises from a lack of confidence with the ability to learn and retain information in a meaningful way. This engaging workbook is designed to help students to overcome these issues. It not only shows students how to develop a positive success attitude towards study and exams, but also aims to equip them with powerful strategies and techniques for learning and remembering. The book offers strategies for learners whose methods of learning are multisensory. When learning is active rather than passive, it

happens faster, and is easier, more enjoyable and more effective. As you progress through the fun, engaging activities, so your confidence and belief in your ability to learn will increase.

Struggling students will become confident, successful learners, with a positive attitude and access to a wide range of effective strategies, and in this way, you will achieve the results in exams that you have worked for and deserve.
