Is evolution true? If so, what is the force that drives it? Can natural

selection account for so complex an organ as the eye--or is Darwin's theory merely what an eminent nineteenth-century astronomer call 'the law of higgledy-piggledy'? Is molecular evolution a random process? What is the real relationship between the theory of evolution and biological classification? Why do living things appear to come to recognizable units called species, and how can one species split into two? Does evolution proceed gradually, or in jerks? What causes the grand patterns of change in the fossil record?

Combining elements of Andrew Weil's SPONTANEOUS HEALING and Carolyn

Myss's ANATOMY OF THE SPIRIT with a concept all its own, Alberto Villoldo's remarkable book, Shaman, Healer, Sage demonstrates the healing power of energy medicine - a tradition practised in the Americas for more than 5,000 years - which is finally being recognized today by the medical establishment. As he explores such subjects as the Luminous Energy Field that surrounds our bodies, Villoldo shows us how, by learning to see and influence the imprints of disease on this aura of energy, we can discover not only how to heal ourselves and others, but prevent illness as well. Here too, he explores the subject of life beyond death, navigating this

unseen world with the knowledge of a scientist and the wisdom of a shamanic healer. Classically trained as a medical anthropologist and a foremost teacher of the shamanic techniques of the Inkas, among whose descendants he has studied for more than twenty-five years, Villoldo weaves together a host of illuminating stories and exercises to provide an accessible, practical, and revolutionary programme of healing. *A Far Country* Hachette UK

Excavating the roots of the world in which he was abandoned, Myshkin comes to understand the connections between anguish at home and a war-torn universe overtaken by patriotism. Humanitas Fiction
 „Nu cred decât în foc. Viață. Foc. Fiind eu însămi o flacăra, îi înflăcărez pe alții. Niciodată moarte. Foc și viață. Le jeu." (Anaïs Nin) Cel de-al treilea volum din provocatorul „Jurnal al dragostei“, Foc este o carte a oglinzilor, a jocurilor erotice, a iubirilor paralele (care se hrănesc sau se anihilează reciproc). Un concert de muzică a trupului. Și o vivisecție,

pasională și lucidă în același timp, a eului feminin în plin proces de autodezvăluire. Sau poate de automatizare? Să fie jurnalul o țesătură densă de „minciuni miraculoase”, inspirate și menite să inspire? Există oare și în scris o anume naturalitate a actriței care se joacă pe ea însăși? „Jurnalul meu este o oglindă; el spune povestea visătoarei care, cu multă vreme în urmă, își trăia viața așa cum ar fi dat paginile unei cărți” - scrie Anaïs Nin. Foc, al treilea volum din celebrul jurnal necenzurat al scriitoarei, are ca fundal New Yorkul anilor 1934-1937, „o uriașă jucărie sclipitoare”, în care Anaïs Nin evadează din colivia aurită a vieții alături de soțul ei,

Hugo Guiler. Pentru ea, erosul înseamnă dualitate și, inevitabil, tragedie. Alături de psihanalistul Otto Rank, trăiește orgii ale minții; cu scriitorul Henry Miller, împărtășește febra creației și atinge extazul. Mărturisește însă că îl așteaptă pe bărbatul care o va mântui de toți ceilalți și, poate, îl găsește în pasionalul Gonzalo Moré, de descendență incasă, care îi deschide porțile misticismului. Meditează asupra naturii masculine și feminine, asupra sexualității, viselor, psihanalizei și dorinței de creație. Cât din ființa ei profundă ne dezvăluie însă Anaïs Nin? Cât din jurnalul ei este persona, mască, plăsmuire, și cât este „pură” autobiografie?

The Sanctuary of Eleusis, near Athens, was the center of a religious cult that endured for nearly two thousand years and whose initiates came from all parts of the civilized world. Looking at the tendency to "see visions," C. Kerényi examines the Mysteries of Eleusis from the standpoint not only of Greek myth but also of human nature. Kerényi holds that the yearly autumnal "mysteries" were based on the ancient myth of Demeter's search for her ravished daughter Persephone--a search that he equates not only with woman's quest for completion but also with every person's pursuit of identity. As he explores what the content of the

mysteries may have been for those who experienced them, he draws on the study of archaeology, objects of art, and religious history, and suggests rich parallels from other mythologies.
