A lady desiring vengeance seeks a highwayman's help in this tale by an author whose novels are "the gold standard in historical romance" (Lisa Kleypas). Lady Leigh Strachan's father governed the town of Felchester—until a religious zealot murdered her family and turned the village into hell on Earth. Now, there is room in her heart for only one thing: revenge. Leigh plans to kill her father's murderer once she learns to aim a pistol, slash a sword, and ride a horse. She seeks out the Prince of Midnight, a legendary highwayman exiled to France, as her choice of tutors. But the man she finds in a crumbling French castle is no hero. Half deaf and suffering from vertigo, S. T. Maitland can scarcely walk, much less wield a sword atop a dancing stallion. Yet for reasons she can't explain, she remains with him, steeling her heart against the sight of his gold-streaked hair, green eyes, and brows adorned with a devilish curl at the arch . . . Women mean nothing but trouble to the highwayman, so he wishes Leigh were less alluring. Alas, she is beautiful, with a piercing gaze and a determined spirit. Despite his broken balance, the loss of his horse, and the price on his head, he vows to return to England with her. He cannot resist the challenge—or the chance to sacrifice everything for love . . . The New York Times–bestselling author of *Flowers from the Storm* and *Shadowheart*, Laura Kinsale writes an "unfailingly brilliant and beautiful" romance (Julia Quinn).

The Land Gardeners show you how to establish organic garden beds and sow, grow and harvest over 100 varieties of cut flowers. 'With their instinctive flair, Elworthy and Courtauld established cutting gardens that bring the deep poetry of organic flowers to their enthusiastic

customers.' Patrick Kinmonth For American Vogue In this visual diary of life in the garden, The Land Gardeners share their beliefs on the importance of soil health, introduce you to their favourite blooms and inspire you to create your own cutting garden with expert knowledge on how to grow and what to gather by season. Based in the original walled garden at Wardington Manor, The Land Gardeners have revived the tradition of working with the land to produce abundant, seasonal flowers for clients' use in decoration, design and events. But for all the frivolous bucolic beauty of the flowers, it is the productivity and health of the soil that truly underpins The Land Gardeners' philosophy. The book explores lively soil, the joy (and, arguably, necessity) of gathering from our gardens, and the imperative that we care for our soils and live among healthy, vital gardens.

I guess I always felt even if the world came to an end, McDonald's still would be open. High school sophomore Miranda's disbelief turns to fear in a split second when an asteroid knocks the moon closer to Earth, like "one marble hits another." The result is catastrophic. How can her family prepare for the future when worldwide tsunamis are wiping out the coasts, earthquakes are rocking the continents, and volcanic ash is blocking out the sun? As August turns dark and wintery in northeastern Pennsylvania, Miranda, her two brothers, and their mother retreat to the unexpected safe haven of their sunroom, where they subsist on stockpiled food and limited water in the warmth of a wood-burning stove. Told in a year's worth of journal entries, this heart-pounding story chronicles Miranda's struggle to hold on to the most important resource of all--hope--in an increasingly desperate and unfamiliar world. An extraordinary series debut Susan Beth Pfeffer has written several companion novels to *Life As We Knew It*, including *The Dead and the Gone*, *This World We Live In*, and *The Shade of the Moon*.

A duke's well-ordered world is turned upside down when a female inventor sends his heart soaring in this Regency romance by a New York Times–bestselling author. Merlin Lambourne has invented the “speaking box”—a sort of telephone—which is so valuable that Napoleon has killed for it. Sent by the crown to bring both inventor and invention to safety, Ransom Falconer, Duke of Damerell, is shocked to learn Mr. Lambourne is a Miss. Perhaps more shocking, however, are his feelings for the eccentric genius. She is everything he doesn't like: incapable of following orders, unaware of conventional etiquette, preoccupied, disorganized, and unkempt. Yet she beguiles him. One of the most ingenious inventors in England, she is also one of the country's greatest hopes in the defense against the power mad Napoleon Bonaparte. Now, if he could just get her mind out of the clouds and convince her to marry him . . . Merlin is not absentminded, it's just that she only seems to be able to pay attention to one thing at a time. And maybe she does take everything people say literally, but people ought to say what they mean. Now this Ransom Falconer wants her to forget her current interest in flying machines and focus on the speaking box she's lost interest in finishing. It's quite disconcerting. In fact, everything about him is disconcerting; in her isolated life Merlin has never met anyone who affects her quite like Ransom does. With her trademark blend of heartwarming characters and a hilarious conflict, *Midsummer Moon* is yet another winner from the author of *Flowers from the Storm*, praised by Lisa Kleypas as “the gold standard in historical romance.”

This “engrossing” (The Wall Street Journal) national bestseller and true “heartbreaking tale of tragedy and redemption” (Hampton Sides, bestselling author of *Ghost Soldiers*) reveals how a discovered diary—found during a brutal World War II battle—changed our war-torn

society's perceptions of Japan. May 1943. The Battle of Attu—called “The Forgotten Battle” by World War II veterans—was raging on the Aleutian island with an Arctic cold, impenetrable fog, and rocketing winds that combined to create some of the worst weather on Earth. Both American and Japanese forces tirelessly fought in a yearlong campaign, with both sides suffering thousands of casualties. Included in this number was a Japanese medic whose war diary would lead a Silver Star–winning American soldier to find solace for his own tortured soul. The doctor's name was Paul Nobuo Tatsuguchi, a Hiroshima native who had graduated from college and medical school in California. He loved America, but was called to enlist in the Imperial Army of his native Japan. Heartsick, wary of war, yet devoted to Japan, Tatsuguchi performed his duties and kept a diary of events as they unfolded—never knowing that it would be found by an American soldier named Dick Laird. Laird, a hardy, resilient underground coal miner, enlisted in the US Army to escape the crushing poverty of his native Appalachia. In a devastating mountainside attack in Alaska, Laird was forced to make a fateful decision, one that saved him and his comrades, but haunted him for years. Tatsuguchi's diary was later translated and distributed among US soldiers. It showed the common humanity on both sides of the battle. But it also ignited fierce controversy that is still debated today. After forty years, Laird was determined to return it to the family and find peace with Tatsuguchi's daughter, Laura Tatsuguchi Davis. Pulitzer Prize–winning journalist Mark Obmascik “writes with tremendous grace about a forgotten part of our history, telling the same story from two opposing points of view—perhaps the only way warfare can truly be understood” (Helen Thorpe, author of *Soldier Girls*).
