**Philosophy Bites Back**

Oxford University Press  
Its treatment is roughly

chronological, starting with the ancient Greek philosophers Heraclitus and Parmenides and proceeding through the

history of Western philosophy and science up to the present.

[A Little History of Religion](#)  
Oxford University Press,  
USA

In this lucid and masterful work, the eminent scholar Anthony Kenny offers an indispensable resource - the most concise and compelling story of the complete development of philosophy available.

[A Short History of Greek Philosophy \(Illustrated\)](#)  
Yale University Press  
Provides a brief history of Western philosophy and philosophers, and

provides information on Eastern philosophy and philosophers in such areas as Confucianism, Taoism, Buddhism, Zoroastrianism, and Jainism.

[A Little History of Philosophy](#) Cengage Learning

How did a land and people of such immense diversity come together under a banner of freedom and equality to form one of the most remarkable nations in the world? Everyone from young adults to grandparents will be fascinated by the

answers uncovered in James West Davidson's vividly told *A Little History of the United States*. In 300 fast-moving pages, Davidson guides his readers through 500 years, from the first contact between the two halves of the world to the rise of America as a superpower in an era of atomic perils and diminishing resources. In short, vivid chapters the book brings to life hundreds of individuals whose stories are part of the larger American story. Pilgrim William Bradford

stumbles into an Indian deer trap on his first day in America; Harriet Tubman lets loose a pair of chickens to divert attention from escaping slaves; the toddler Andrew Carnegie, later an ambitious industrial magnate, gobbles his oatmeal with a spoon in each hand. Such stories are riveting in themselves, but they also spark larger questions to ponder about freedom, equality, and unity in the context of a nation that is, and always has been, remarkably divided and

diverse. *A Passion for Wisdom* Yale University Press Exploring more than 60 of the most important events in world history, this ebook is the perfect introduction to the past, and ideal for summer reads. From the birth of Athenian democracy to the rise and fall of Rome and from the American Revolution to the landing beaches of World War II, *The Little Book of History* brings the past to life. Includes infographics and flowcharts that explain complex concepts in a

simple but exciting way, this ebook examines the events that shaped our past. Charting the human era from the beginnings of civilization to the modern culture of today this ebook makes the perfect introduction to the human story. One of a series of new, compact sister titles to DK's "Big Ideas" series, *The Little Book of History* offers you the same combination of clear text and hard-working infographics perfect for vacation reading. *Collectors Edition* University of Hawaii Press

For curious readers young and old, a rich and colorful history of religion from humanity's earliest days to our own contentious times. In an era of hardening religious attitudes and explosive religious violence, this book offers a welcome antidote. Richard Holloway retells the entire history of religion—from the dawn of religious belief to the twenty-first century—with deepest respect and a keen commitment to accuracy. Writing for those with faith and those without,

and especially for young readers, he encourages curiosity and tolerance, accentuates nuance and mystery, and calmly restores a sense of the value of faith. Ranging far beyond the major world religions of Judaism, Islam, Christianity, Buddhism, and Hinduism, Holloway also examines where religious belief comes from, the search for meaning throughout history, today's fascinations with Scientology and creationism, religiously motivated violence,

hostilities between religious people and secularists, and more. Holloway proves an empathic yet discerning guide to the enduring significance of faith and its power from ancient times to our own. [From Descartes to Wittgenstein](#) Penguin Now in a special gift edition, and featuring a brand new foreword by Anthony Gottlieb, this is a dazzlingly unique exploration of the works of significant philosophers throughout the ages and a definitive must-have

title that deserves a revered place on every bookshelf.

Big Ideas Simply Explained Oxford

University Press

A multicultural examination of the three historical movements in philosophical thought and development over a 4000 year period

*Engaging Japanese Philosophy* Yale University Press

Philosophy challenges our assumptions—especially when it comes to us from another culture. In exploring Japanese

philosophy, a dependable guide is essential. The present volume, written by a renowned authority on the subject, offers readers a historical survey of Japanese thought that is both comprehensive and comprehensible.

Adhering to the Japanese philosophical tradition of highlighting engagement over detachment, Thomas Kasulis invites us to think with, as well as about, the Japanese masters by offering ample examples, innovative analogies, thought experiments, and jargon-free explanations.

He assumes little previous knowledge and addresses themes—aesthetics, ethics, the samurai code, politics, among others—not in a vacuum but within the conditions of Japan's cultural and intellectual history. For readers new to Japanese studies, he provides a simplified guide to pronouncing Japanese and a separate discussion of the language and how its syntax, orthography, and linguistic layers can serve the philosophical purposes of a skilled writer and subtle thinker.

For those familiar with the Japanese cultural tradition but less so with philosophy, Kasulis clarifies philosophical expressions and problems, Western as well as Japanese, as they arise. Half of the book's chapters are devoted to seven major thinkers who collectively represent the full range of Japan's historical epochs and philosophical traditions: Kūkai, Shinran, Dōgen, Ogyū Sorai, Motoori Norinaga, Nishida Kitarō, and Watsuji Tetsurō. Nuanced details and

analyses enable an engaged understanding of Japanese Buddhism, Confucianism, Shintō, and modern academic philosophy. Other chapters supply social and cultural background, including brief discussions of nearly a hundred other philosophical writers. (For additional information, cross references to material in the companion volume *Japanese Philosophy: A Sourcebook* are included.) In his closing chapter Kasulis reflects on lessons from Japanese philosophy that

enhance our understanding of philosophy itself. He reminds us that philosophy in its original sense means loving wisdom, not studying ideas. In that regard, a renewed appreciation of engaged knowing can play a critical role in the revitalization of philosophy in the West as well as the East. *A Passion for Justice* Oxford University Press Presents interviews with leading philosophers who discuss the ideas and works of the most

important philosophers throughout history, including Socrates, Wittgenstein, and Derrida.

**A Very Brief History of Philosophy**

A Little History of Philosophy  
A Brief History of Analytic Philosophy: From Russell to Rawls presents a comprehensive overview of the historical development of all major aspects of analytic philosophy, the dominant Anglo-American philosophical tradition in the twentieth century. Features coverage of all the major subject areas

and figures in analytic philosophy - including Wittgenstein, Bertrand Russell, G.E. Moore, Gottlob Frege, Carnap, Quine, Davidson, Kripke, Putnam, and many others  
Contains explanatory background material to help make clear technical philosophical concepts  
Includes listings of suggested further readings  
Written in a clear, direct style that presupposes little previous knowledge of philosophy  
*The Little Book of Philosophy* Yale University

Press  
E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little

History brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to

line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history. [A History of Western Philosophy](#) Indiana University Press Despite the advances of the civil rights movement, many white southerners cling to the faded glory of a romanticized

Confederate past. In *The Making of a Confederate*, William L. Barney focuses on the life of one man, Walter Lenoir of North Carolina, to examine the origins of southern white identity alongside its myriad ambiguities and complexities. For Lenoir and many fellow Confederates, the war never really ended. As he tells this compelling story, Barney offers new insights into the ways that (selective) memory informs history; through Lenoir's life, readers learn how individual choices

can transform abstract historical processes into concrete actions. Illustrated Edition Simon and Schuster Solomon and Higgins's engaging text covers philosophy's central ideas in an accessible, approachable manner. You'll explore timeless big questions about the self, God, justice, and other meaningful topics, gaining the context you need for an understanding of the foundational issues, as well as the confidence to establish your own informed positions on

these big questions. Available with InfoTrac Student Collections <http://gocengage.com/info-trac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. **A Little History of the World** InterVarsity Press A Little History of Philosophy Yale University Press Philosophy and the Labyrinths of the Mind Yale University Press Philosophy begins with questions about the

nature of reality and how we should live. These were the concerns of Socrates, who spent his days in the ancient Athenian marketplace asking awkward questions, disconcerting the people he met by showing them how little they genuinely understood. This engaging book introduces the great thinkers in Western philosophy and explores their most compelling ideas about the world and how best to live in it. In forty brief chapters, Nigel Warburton

guides us on a chronological tour of the major ideas in the history of philosophy. He provides interesting and often quirky stories of the lives and deaths of thought-provoking philosophers from Socrates, who chose to die by hemlock poisoning rather than live on without the freedom to think for himself, to Peter Singer, who asks the disquieting philosophical and ethical questions that haunt our own times. Warburton not only makes philosophy accessible, he offers inspiration to think,

argue, reason, and ask in the tradition of Socrates. *A Little History of Philosophy* presents the grand sweep of humanity's search for philosophical understanding and invites all to join in the discussion.

**A Brief History of Western Philosophy**

Yale University Press  
 NATIONAL BESTSELLER  
 Eight months on the bestseller lists in France!  
 From the timeless wisdom of the ancient Greeks to Christianity, the Enlightenment,

existentialism, and postmodernism, Luc Ferry's instant classic brilliantly and accessibly explains the enduring teachings of philosophy—including its profound relevance to modern daily life and its essential role in achieving happiness and living a meaningful life. This lively journey through the great thinkers will enlighten every reader, young and old.

**A Brief History of Thought**

Random House  
*A Short History of African Philosophy* discusses

major ideas, figures, and schools of thought in philosophy in the African context. While drawing out critical issues in the formation of African philosophy, Barry Hallen focuses on recent scholarship and relevant debates that have made African philosophy critical to understanding the rich and complex cultural heritage of the continent. This revised edition expands the historical perspective, takes account of recent discoveries and new canonical figures,

highlights new discussions about gender as a cultural and philosophical phenomenon, clarifies issues regarding indigenous cultures and human rights, and builds on the notion that African philosophy shares methods and concerns of philosophy worldwide. This short reference is an essential resource for students, scholars, and general readers. [A Brief History of the Paradox](#) Routledge Winner of the 2010 National Book Critics Circle Award for

Biography How to get along with people, how to deal with violence, how to adjust to losing someone you love—such questions arise in most people’s lives. They are all versions of a bigger question: how do you live? How do you do the good or honorable thing, while flourishing and feeling happy? This question obsessed Renaissance writers, none more than Michel Eyquem de Montaigne, perhaps the first truly modern individual. A nobleman, public official and wine-grower, he wrote free-

roaming explorations of his thought and experience, unlike anything written before. He called them “essays,” meaning “attempts” or “tries.” Into them, he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog’s ears twitched when it was dreaming, as well as the appalling events of the religious civil wars raging around him. The *Essays* was an instant bestseller and, over four hundred years later, Montaigne’s honesty and

charm still draw people to him. Readers come in search of companionship, wisdom and entertainment—and in search of themselves. This book, a spirited and singular biography, relates the story of his life by way of the questions he posed and the answers he explored. It traces his bizarre upbringing, youthful career and sexual adventures, his travels, and his friendships with the scholar and poet Étienne de La Boétie and with his adopted “daughter,”

Marie de Gournay. And we also meet his readers—who for centuries have found in Montaigne an inexhaustible source of answers to the haunting question, “how to live?”

**Racism in the Formation of the Philosophical Canon, 1780-1830** Harper

Collins

This is a chronicle of Chinese thought from the third millennium sage-kings to the 1911 overthrow of the oldest monarchical system in the world. The book

illuminates the most commonly known schools of Confuciansim and

Taoism, and it acquaints readers with Mohism, Yin-Yang, Legalism, Neo-Taosim, Neo-

Confucianism, and the introduction of Western philosophy.
