This text provides students with a thorough, but concise, understanding of concepts, behavior, and accounting techniques applicable to manufacturing cost systems.

Issues in Financial Accounting South Western Educational Publishing

This textbook covers the IAS/IFRS-syllabus of financial accounting on bachelor's and master's level. It covers how to prepare financial statements and tackles special problems in IFRSs-accounting, like asset revaluations, manufacturing accounting, share issues, financial instruments, group statements etc. The content is explained by more than 60 case studies completely illustrated with bookkeeping entries and financial statements. All chapters outline the learning objectives, provide an overview, cover the contents of relevant IAS/IFRS-standards, include case studies and how-it-is-done-paragraphs. They end with a summary, the explanation of new technical terms and a question bank with solutions for checking your learning progress. On the internet, you can find further cases linked to the textbook by QR-codes and more than 350 exam tasks including solutions as well as youtube-videos from the author. The textbook helps you to learn IFRSs and to familiarise yourself with international accounting in English. It is an accurate translation of the textbook Bilanzen from the same author.

**Intermediate Accounting, 16th Edition**  
Univ of California Press

This textbook presents an overview of how the activities of an organisation can be managed to satisfy the needs of stakeholders through the cost effective, operationally efficient and sustainable transformation of resources into outputs. Taking an interdisciplinary approach, the authors show the relationship between management and economics and within this framework present the key areas of management activity. The book explains the connections between these areas and provides tools and instruments for successful management. The book's approach and content is relevant for all kinds of organisation - private or public sector, service or manufacturing, non-profit, large or small. Each chapter provides cases to illustrate what has been discussed and some questions to test comprehension. Throughout the book is a continuing project in which the reader is put in the position of owning their own business and must think and make decisions about what the chapter has discussed. The book combines Anglo-American and German approaches to management and management studies, making it a valuable resource both for those who are studying management and those who are working as managers.
