Life Sciences Pearson South Africa

Real-Life Science Mysteries puts an exciting new spin on scientific thinking by profiling real-life scientists, showing students in grades 5-8 ways they can use science in their everyday lives. From a biologist studying the habits of garter snakes in Manitoba, Canada, to a landscape designer and greenhouse owner in Ohio, the scientists in this book share information and solutions to the thorniest problems they face in their scientific careers. With the more than 30 activities included in Real-Life Science Mysteries, students will be required to try their hand at solving common science problems and performing experiments while learning about real people from diverse backgrounds, all of whom share a love for discovering how they work, why things work, and how they can work better. This book is perfect for any science classroom or young scientists looking to increase their knowledge! Grades 5-8

Grades 5-8 Disha Publications

Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed, loose sheets which come in a stand-up box that fits neatly on a bookshelf. It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple; it's convenient.
