Laura Hernández- Ehrisman examines Fiesta's development as part of San Antonio's culture of power relations between men and women, Anglos and Mexicanos. In some ways Fiesta resembles hundreds of urban celebrations across the country, but San Antonio offers a unique fusion of Southern,</p>	<p>Western, and Mexican cultures that articulates a distinct community identity. From its beginning as a celebration of a new social order in San Antonio controlled by a German and Anglo elite to the citywide spectacle of today, Hernández- Ehrisman traces the connections between Fiesta and the construction of the city's tourist industry and social change in San Antonio.</p>

A los trabajos
que sobre la
11 República
española ha
publicado
Santos Juliá se
añade ahora
este libro que
obtuvo el

premio
"Ortega y
Gasset" Villa
de Madrid
(1982). En él
se intenta
reconstruir
minuciosamen
te el proceso y
los
determinantes
que
convirtieron la
fiesta popular
con que
Madrid
celebró la
instauración
de la
República en
el abierto
enfrentamient
o de clases
que
caracterizó la
vida
madrileña
durante el
invierno de
1933-34. A la
par, y por el
hecho de

reconstruir
este proceso
en un espacio
reducido -una
ciudad-
aunque
sumamente
significativo -
Madrid-, el
autor propone
un modelo de
interpretación
de las luchas
de clases
urbanas
durante la 11
República
que, más allá
de sus
determinantes
políticos,
tenga en
cuenta el
propio
desarrollo de
la ciudad, las
transformacio
nes de su
estructura, los
procesos
migratorios, la
crisis que

afectó a sus principales industrias, el tipo de sus organizaciones obreras y patronales y, en fin, la dinámica de los discursos y las prácticas de clase. De acuerdo con esos presupuestos metodológicos, el libro concede una atención especial a la fiesta como momento fundante de la República para desembocar, tras el análisis de la cristalización de conciencias enfrentadas de clase, en el

estudio de las diferentes formas de lucha de los dos sindicatos obreros y las distintas agrupaciones patronales. El “pueblo todo entero” que aparece como sujeto del primer capítulo del libro se convertirá, durante este corto y denso proceso, en el “frente obrero” y el “bloque patronal” que aparecen radicalmente enfrentados en su última parte. Santos Juliá es profesor del Departamento

de Ciencias Políticas y Sociología de la UNED. Ha publicado, en diversas revistas y obras colectivas, una veintena de artículos sobre temas relacionados con la II República y es autor de *La izquierda del, PSOE, 1935-36* y de *Orígenes del Frente Popular en España*, aparecidos en esta misma editorial.
